Subject: ebay's proposal to limit manner of paying for purchases

I would like to register my point of view: to limit the manner of payment to two ways, ie via Pay Pal or via cash on delivery will severely limit my ability to both sell and buy goods through ebay. PayPal is a privately owned business with poor practices - once I waited 7 days to get urgent information via email enquiry. There was no phone contact, no ostensible way to make a complaint to a person. It is done through email addresses which shows how insecure it is.

In any case, I would like to right to have different ways to make the payment. This proposal by ebay will bring into force a monopolistic way of paying.
regards,
Suzy Furness
