To whom it may concern,

RE: Notification N93402 Football Qld Ltd and Third Line Forcing

I can see no public detriment in allowing Football Qld to limit the number of suppliers of products to the football clubs in Queensland. The quality of the products is higher when there is a limited number of suppliers but there are enough suppliers (13) to give the football clubs the ability to choose between suppliers and "shop" around for the best price.

These suppliers have to pay a fee, I believe, to Football Qld and this supports football in this state.

I fully support Football Qld in regard to this matter.

Thank you for the opportunity to comment.
