Please accept my admission on the current debate with EBay/PayPal.
As another small time user of this web site I feel they are completely ignoring the consumer. PayPal offers less protection than many other online payment options as has been constantly proved. The constant mistakes that PayPal make and never seemed to fix does little to encourage trust in it.
I don't know what the laws or regulations are that involved in this but I would like to register my complete lack of trust in such a system. I do not want to use it.
Many thanks
Jan Stewart
