Subject: decision by ebay to limit to paypal

I would like to lodge my strong objection to Ebay limiting payment options and forcing me into using Paypal. I have used Ebay for years and consider this to be an abuse of market position. It offers me no choice about whether or not to use Paypal. I prefer to continue with direct deposit option, dealing directly with the seller. Under the Ebay proposal I will be unable to do so. I do not want to register my personal and bank details with Paypal because Ebay mandates this. Please rule against this proposal.

Thank you
Anita Davis
