Hi Adjudicators and the Member of Parliament responsible,

I found this news article which is backed up by many many members of eBay saying the same thing on the eBay community Forums.

I urge you to immediately take this immoral and reprehensible monopoly to task to the absolute fullest extent of Australian law.

They are really just thumbing their noses at Australia, its laws and the ACCC

Se the link below

http://apcmag.com/ebay_ notsosubtly_forcing_mandatory_paypal.htm

You may submit this to the public register.

Regards
Dave Boxwell
