Subject: Ebay's Proposed PayPal only policy

Dear Sir/Madam,

As a buyer who has used Ebay from time to time, and as one who has paid for some items using PayPal, I would like to register my objection to Ebay's plans to force all sellers to offer PayPal as the only option to cash payment on pickup. This would seem to be another example of a major corporation setting the ground rules to maximise their returns, by limiting the payment options primarily to their own proprietary product. While I understand that there can be security benefits for the buyer when paying for items using PayPal, I agree with the ACCC's view that the Ebay proposal is anti-competitive.

Sincerely,
Ron Overs
