Subject: Notification - N 93365 (eBay International AG)

To whom it may concern

I made a submission on 5 May 2008, seeking ACCC action to not allow Notification - N 93365 (eBay International AG) to proceed on the grounds of the anti-competitive nature of the proposal. I note the ACCC's draft decision of 12 June 2008. I agree with the draft decision and hope that the draft will remain unchanged when the final decision is made.

Again, I respectfully request that any identifying information be removed from any publically available materials.

Sincerely

Barny Lee
