EXCLUDED FROM
PUBLIC RELEASE

Good morning, ACCC

I wish to make a very brief submission in support of the current position by the ACCC in its ruling against eBay.

As a regular *buyer/seller* on eBay and other internet based sites that use PayPal, I wish to register my grave concerns about the current status of PayPal in the Australian Banking System as well as eBay's attempts to force its use on all participants in their venue.

- 1) Do you support ACCC's notification against exclusive Paypal forcing?: Yes**
- 2) Do you agree that the Stage 1 - Paypal 'compulsory option' i.e. having to offer Paypal on all listings, should be rolled back as soon as possible? :Yes**
- 3) Do you believe Paypal should sign EFT Code of Conduct to ensure a 'Safe' transaction system for all consumers?: Yes :**

Please add my comments to the submission that will be presented to the ACCC hearings.

June McPherson. <email address excluded>
