Hello Lauren,

I have read through the attached correspondence and the decision regarding eBay, I also wish to voice my approval and support that the ACCC has:-

*Taken the decision to support the public in allowing a 'Freedom of Choice' when it comes to on-line payments.

*Realized that there are no pronounced benefits in the "so called security" that Paypal offers relative to other payment methods. EBay members very rarely get any satisfaction in the resolution of complaints through Paypal.

* Recognized that allowing this proposal to go through is going against "The Australian Way".

I only hope that the proposed meeting results in the ACCC standing firm and not letting the Australian Public be dictated to. We live in a country of free choice not a Dictatorship.

Kind regards
John Castell
