Subject: eBay International A.G.Notification N.93365

I wish to submit my opinion regarding the claim by eBay that it is protecting its members by offering Pay Pal only payments for purchases made on eBays auction site. The suggestion is that eBay is on the side of its members regarding this situation. I do NOT believe that eBay has the best interests of its members at "heart". I believe that I am the best judge of what is a safe payment method for me and PP isn't it - BY FAR!!!!!!

I believe that eBay is being less than truthful in stating that safety for members will exist under a PP only payment regime.

Regards M. O'Brien
