Dear Ms Macrae

re: PoolWerx Corporation Pty Ltd - Notification - N93718

I am a franchisee with Poolwerx and strongly oppose the third line forcing notification submitted by Poolwerx.

I find it detrimental to the consumer as I can not be as competitive with my pricing as I would like as I am restrained from purchasing outside of the approved list. The line that Poolwerx follow regarding permission to do so is unworkable in the industry that we are in. It is slow & cumbersome and the buying decision is taken from the consumers hand by the Poolwerx Co.

The purchasing power of the Poolwerx organisation would entail discounts from recommended suppliers without a rebate needed to have them put on a preferential list. As has been stated the supplier claws this rebate back through the cost to the franchisee and ultimately the consumer.

Thankyou
