Dear Sir,

I am replying to your letter dated the 17th of April, 2009. We wish to advise of our full support of the application for revocation and substitution from the Australian Brick & Blocklaying Training Foundation Ltd (ABBTF).

In the years we have been applying this levy we have seen a steady increase in apprenticeships and consider this project to be the most positive thing to be brought to the brick & blocklaying industry in the 30 years we have been in North Queensland.

The lack of young qualified brick and blocklayers has been a concern of ours over the years and we believe this project is going a long way in addressing this issue.

Thank you for letting us comment on this final determination.

Regards,

Ben Scott
