RE: Casuarina Precinct Shareholders Committee

Dear Sir,

In reference to the Casuarina Precinct Stakeholders Accord, I wish to advise you of current developments already in place to counter the anti-social behavior in this area.

The Northern Territory Liquor Commission has already held public consultation meetings re proposed banning of Wine and fortified wine containers of 4 litre or greater in volume.

As a result of this consultation I have been led to believe that in February they are about to ban completely the sale of these products throughout the Northern Territory.

I would also point out both Coles and Woolworths are members of the LSANT and have already individually taken steps to restrict the sale of these products.

The NT Liquor Commission actions may go a long way to negating the need for action by your Commission.

Yours sincerely

Colin Newman
Executive Officer
