4. Public benefit claims

- (a) Arguments in support of notification:
(Refer to direction 7)

Resulting from the application of the above conditions, Evolve will be able to achieve the following to benefit the purchasers of the specified lots:

1. Consistency and quality dwelling design, appearance and streetscape, providing for a desirable neighbourhood environment and enables the purchaser greater opportunity to realise a capital gain.
2. Certainty of outcome, both quality and expediency of building construction through the nomination of a reputable builder who has a solid working relationship with Evolve.
3. Evolve will pre-determine dwelling design in consultation with the nominated builder to ensure that each dwelling is positioned on each lot to achieve cost effective and sustainable uses of the land.
4. Net cost benefit to purchasers, including but not limited to the following:

4.1 Attached product will be packaged as a house and land offering, which by its nature, is able to achieve cost benefits through an integrated selling process providing for reduced marketing costs to the vendor and the builder.

4.2 Construction will be undertaken by the nominated builder on a volume basis producing economies of scale cost and construction efficiencies which would not ordinarily be available to a purchaser of a standard residential lot arrangement.

(b) Facts and evidence relied upon in support of these claims:

Addressed above in section 4(a).

5. Market definition

Provide a description of the market(s) in which the goods or services described at 2 (a) are supplied or acquired and other affected markets including: significant suppliers and acquirers; substitutes available for the relevant goods or services; any restriction on the supply or acquisition of the relevant goods or services (for example geographic or legal restrictions); *(Refer to direction 8)*

Wollert is situated within the municipality of City of Whittlesea which is designated as a high urban growth zone, containing numerous new land estates and various opportunities for purchasers to buy vacant residential land, or land with a newly constructed dwelling at a range of price points.

The purchaser may also select from a range of other lots available within the same neighbourhood of the development that have no limitation on the purchaser's choice of builder.

6. Public detriments

(a) Detriments to the public resulting or likely to result from the notification, in particular the likely effect of the notified conduct on the prices of the goods or services described at 2 (a) above and the prices of goods or services in other affected markets: *(Refer to direction 9)*

1. Purchasers of the specified residential lots in Summerhill, will not have a choice of builder or dwelling design on each of these particular lots as particular house types will be allocated to each lot resulting in a varied organised streetscape and ensuring the capital value of the lots. The negative effect of this facet is neutralised by the design and net cost benefits which are obtained by the purchaser, as referred to above.

2. The proposed conduct will produce a perceived constraint on free market competition with regard to rival builders operating in the same

market and region of Melbourne. However, this will be offset by the continued and future supply of residential lots in Summerhill, approximately 800, for which competing builders have the opportunity to supply construction services, in addition to equivalent opportunities in neighbouring developments.

- (b) Facts and evidence relevant to these detriments:
Addressed above in section 6(a)

7. Further information
