Agree with ACCC to deny authorisation between Virgin Blue and Air New Zealand for flights between Australia and New Zealand

- 1) The plan reduced competition on trans-Tasman passenger flights is against New Zealand Government's so called (pro-competition) policy. (As a shareholder/customer of Air NZ ^{in NZ})
- 2) Not only will 1 million passengers be adversely affected but tourist related businesses too.
- 3) The idea of any new airline going into the Australia/NZ market will be reduced between all the markets between Australia and New Zealand but also within New Zealand's domestic markets.
- 4) Places like Christchurch where only one flight a day that is not shared on Air NZ / Pacific Blue / Qantas / Jetstar and/or partners is operated trans-Tasman.
- 5) Is Virgin Blue paying any fees to any other company for the use of the Virgin name?
