Dear Noel,

RE. Football Queensland Marketing Program

Football Gympie Inc. is very concerned at the possibility of the Football Queensland Marketing Program being withdrawn and being replaced with a levy per player. The increase in the player fees with the additional marketing fee, will jeopardize and destroy our player numbers and competition.

The combination of Football Australia, Football Queensland and Football Wide Bay components of the fees are high and with this additional fee will make the Registration fees too high for the Competition administrators and Clubs to add their component to the registration fees.

With to-days economic situation all families are struggling to just live and will forgo the sports for their children and themselves, if the cost of registrations keeps going up. Our player numbers are decreasing each year due to the cost and the additional marketing levy will put the sport out of reach for many.

Having the Marketing program does not affect the individual players of the sport, therefore making the sport available at a reasonable cost to all concerned from grass roots to Premier league.

Football Gympie strongly opposes the marketing program being replaced with a player levy fee.

Yours in football,
P. E. Tindall
