**Subject:** Medicines Code of Conduct

Australian Competition and Consumer Commission  
To Panel Members.

People might ask the ACCC to impose the following "conditions" when authorising Medicines Australia Code:

- Full disclosure of individual payments to healthcare professionals as per the U.S. Sunshine Act.
- Substantially increase the levels of fines for code breaches.
- Add consumer and health professional representatives to the Code governing body.

As a concerned pharmacist I wish the above matters to be considered.

Yours  
David Meller
