Subject: RE: St Vincent's Health Australia & Ors - Applications for Authorisation (A91295, A91296, A91297) [DLM=For-Official-Use-Only]

Dear Anna

We confirm that the Applicants do not wish to lodge any further submission prior to a final determination being released by the ACCC, other than to reiterate that they seek authorisation for as long as SVHA, HSN and SVPHS are related bodies corporate or are directly or indirectly owned and controlled by the Sisters of Charity of TMAM. As noted in the submission on page 30, this period reflects the technical legal issues that are driving this application (when in normal circumstances all the relevant parties would be related bodies corporate), the public benefits that will thereby be achieved and the clear lack of any detriment associated with the proposed conduct.

Kind regards

Johanna Croser | Associate
