Dear Peter

Thank you for your letter dated 29 September 2014 advising that the final configuration of the Bowden Project Site development still contains 32 affordable housing dwellings but that now comprises 37% of the total dwellings rather than 40%.

Given that this does not materially change the assessment of public benefits and detriments, the ACCC does not propose to take any further steps at this stage.

Can you please confirm that you are happy for your letter dated 29 September 2014 to be placed on the public register?

Yours sincerely

Darrell Channing
