REF: A91407 – Australian Newsagents Federation - submission

Dear Susan,

Since 2001, epay Australia has been providing a wide range of prepaid products to more than 23,000 retailers nationally. Newsagents are a large part of our independent retail customer base.

The prepaid product range that epay provide broadly consists of:  
Prepaid Mobile top-up's, calling cards, internet,  
Prepaid gift cards, music, games,  
Prepaid Visa cards,  
Transport top-up's and Tolling passes

epay is comfortable with the submission by the ANF to allow companies such as epay, the option to voluntarily engage the Federation in a collective bargaining arrangement.

We don't believe that entering into this arrangement will have any effect on competition or detrimentally impact the public.

Sincerely,

A handwritten signature in black ink, appearing to read 'Matthew Blayney'.
