Tess

We would like to ensure that any authorisation granted covers GPC and any future owners / operators of the Channel Infrastructure **or the Terminals** (section 3(a) of our Form B referred to future owners/operators of the Channel Infrastructure but did not specifically include a reference to future owners/operators of the Terminals).

There may be a possibility that, in the future, GPC is privatised and the owner or operator of the Channel Infrastructure is different to the owner or operator of the Terminals. If this did occur, it would be beneficial for both the future owner or operator of the Channel Infrastructure and the future owner or operator of the Terminals to have the benefit of any authorisation granted by the ACCC.

Hopefully this is a relatively minor request, which can be accommodated without too much inconvenience but please let me know if you would like any further information.

Matthew
