RE: National Paint Stewardship Scheme

Dear Mr Wu,

The Paint Place Group of Stores is supportive of the introduction of the proposed levy as it assists the community and industry in meeting its environmental obligations, in a market where it has been difficult to implement a solution in the past.

The general community will be accepting of this system and the only requirement we have is that the communication and process is clear from the outset. The levy needs to be encompassed by all participants in the industry, no exceptions, with the levy clearly marked on invoices for consumers to see. We believe 15 cents is an acceptable value.

Please feel free to contact me with any query.

Sincerely

Mark Sutton
CEO Paint Place Group of Stores
