**Subject:** A91504– APMF & Ors – submission

To Whom it May Concern,

As an authorised representative of Haymes Paint Pty Ltd I am writing to support the above mentioned submission that proposes collection of a \$0.15/L levy to fund the collection and disposal of end of life architectural paint from retail and trade.

Haymes Paint is an interested party as a member of the Australian Paint Manufacturers Federation and one of the founding members of the Paint stewardship scheme as outlined on page 5 of Annexe A.

Haymes believe that a \$0.15/L levy will not be an onerous amount of money to purchasers but should be adequate to fund the collection and disposal program. Ultimately, Haymes supports the funding of research from this levy to develop more environmentally responsible means of disposal.

Should you have any queries please do not hesitate to contact me at your convenience.

Regards,

Liz Salter
