>> To whom it may concern,

>>

>> My name is Jessica Kocaj. I'm a mother of a 3 year old and 1 year old. My concern is that even with the Governments health recommendations there is still so much confusion in the community.

>>

>> When my second baby was 2 months old I went to a pharmacy in Kelmscott Western Australia to find out if there was a product to help with his wind. The assistant told me that I should try another formula. When I explained I breastfed she looked surprised and told me I should change to formula as that would stop the wind problems. I'm thankful that I was confident enough with the benefits of breast feeding as I believe other mothers may listen to this advice.

>>

>> The whole community needs to be re-educated as when it's physically possible breast feeding is the best for a babies health. Please help stop the advertising that is contributing to this confusion.

>>

>> Yours sincerely

>>

>> Jessica Kocaj.
