### **Clean Energy Council Limited - Revocation and Substitution - A91495 & A91496**

EnergyAustralia appreciates the opportunity to provide input into the adjudication on the revocation and substitution of the Clean Energy Council's Code of Conduct for Solar PV Retailers (the Code). We are one of Australia's largest energy companies, providing gas and electricity to over 2.6 million household and business customers in NSW, Victoria, Queensland, South Australia and the Australian Capital Territory. EnergyAustralia owns and operates a multi-billion dollar portfolio of energy generation and storage facilities across Australia, including coal, gas and wind assets with control of over 4,500MW of generation in the National Electricity Market.

EnergyAustralia Australia welcomes the decision to recognise the increasing prevalence of financing options such as leasing and power purchase arrangements in the Code. We believe the new Code will ensure that consumers are furnished with the information that they require to make an informed decision with regard to the options for solar panel installation and connection.

We also consider that the clarification of roles and responsibilities surrounding connection to distribution networks will give consumers confidence that their installation and connection will be handled in an appropriate manner allowing them to enjoy the benefits of their investment sooner. On this basis we support the revocation and substitution of the Clean Energy Council – Solar PV Retailer Code of Conduct.

If you require any further information with regard to this submission, please contact me on 86281731 or via email at [joe.kremzer@energyaustralia.com.au](mailto:joe.kremzer@energyaustralia.com.au)

Yours sincerely,

**Joe Kremzer**
