Refrigerant Reclaim Australia Draft Determination A91515

Dear Mr Jones,

I am writing in relation to the ACCC's decision to reauthorise Refrigerant Reclaim Australia (RRA). As RRA operates the only Australia-wide program to recover and safely dispose of ozone-depleting and synthetic greenhouse gas refrigerants at end-of-life this decision was vitally important.

RRA delivers significant environment benefits and is an essential element in our industry's efforts to reduce detrimental impacts in the atmosphere. Additionally, it ensure companies can meet the requirements of Commonwealth legislation.

We are pleased to support RRA's ongoing operations and do not request a pre-determination meeting. We look forward to receiving notification of the ACCC's final positive determination in due course.

Yours sincerely,

Dr Greg Picker
Executive Director
Refrigerants Australia
