6th June 2016

Dear Sir

Reference: 59356 - Application for revocation & substituting A91530 – St George Region of Council

We refer to your letter dated 1st June 2016 with respect to an application by the St George Region of Councils for contracting of waste and recycling collection services at Hurstville City Council, Kogarah Municipal Council and Rockdale City Council.

On behalf of our Members we confirm that the Association supports this collective authorisation on the following basis:

- That any tender that is advertised and awarded is strictly for the services requested in the specification;
- That it is the very clear understanding of our Association and its Members that any add-on services (for example – processing, landfilling, disposal, etc. plus the provision of bins.) do not constitute a part of this tender. It is our very clear expectation that if such services are to be awarded, then they will be the subject of another competitive widely advertised tender process;
- That this process follows the NSW Environment Protection Authority (EPA) service timelines & Model Collection contracts;
- That all tender documents comply with the NSW Domestic Waste Code of Practice (SafeWork NSW); and
- That all tender documents comply with the NSW EPA Better Practice Guide for Waste Management in Multi-Unit Dwellings.

If you wish to discuss any aspect of our response please do not hesitate to contact the undersigned.

Yours Faithfully,

Tony Khoury
Executive Director
