

The Victorian Small Business Commission made an oral submission prior to the draft determination. It submits that:

1. It supports the application for re-authorisation.
2. The VSBC has not received any disputes relating to the Code. To the extent that there is a need for operative Code provisions to be amended as indicated by the ARA, the VSBC supports amendments to strengthen the Code provided there is evidence to support the need for amendment.
3. It considers that involvement of the SCCA and ARA as parties to the Code results in a balance between the interests of various parties to the Code.
