ACCC request for information dated 29 April 2020**

Lundbeck became a participant to the Interim Authorisation on 27 April 2020.

Initially Lundbeck considered it would have little to contribute to discussions with other conduct participants but subsequently observed an increase in demand for the mood disorder medicines it supplies in Australia and decided to become a participant.

Lundbeck has to date, not been invited to join Working Group meetings but remains ready to assist in ensuring supply of important medicines in Australia during the Covid-19 crisis.
