**Subject:** RE: AA1000486 - Medicines Australia interim authorisation - Request for information [SEC=OFFICIAL] [ACCC-ACCCANDAER.FID2548316]

Hi Simon,

In regards to the Medicines Australia interim authorisation we have not needed to utilise the process at Vifor Pharma. Our products are not subject to stock issues that have not been able to be managed in a normal way within our organisation.

Having the interim authorisation available however is a good measure. If the situation had been worse having this facility available would have been extremely helpful in working to ensure patients were able to receive their treatments.

Kind regards,

James
