Subject: FW: Tooltechnic Systems (Aust) Pty Ltd - resale price maintenance (RPM) notification [DLM=For-Official-Use-Only]
Importance: High

Dear Tess

Thank you for your email. We have set out below our response to each of your queries.

1. **Description of the RPM conduct in relation to Festool products:** we confirm that the description of the notified RPM conduct, in relation to Festool products is as follows: "Tooltechnic to continue to require in its agreements with its dealers selling Festool branded products to not sell any Festool product below a price(s) nominated by Tooltechnic."
2. **Contact details of relevant market participants:** please see attached updated contact details (including email addresses), as well as contact details for Makita. We confirm that the reason why only 5 dealers have been included is that these dealers sell both Festool and Fein products.
3. **Public version of submission:** we confirm that the ACCC can use either the un-redacted title pages of Schedules 1, 2, 5, 6 and 7 (copy attached) or the Index of documents, in the public version of Tooltechnic's submission.

If you have any further queries, please let us know.

Kind regards
Noelia
