Subject: Objection to Authorisation AA1000542

Dear Sir/Madam,

I would like to oppose the proposal to grant NIB/Honeysuckle authorisation to operate a buying collective with Australian Healthcare providers (Authorisation no:- AA1000542)

This would reduce the current level playing field that health care providers operate under in the private sector in Australia and ultimately restricts patients' options with choosing his/her health care provider.

This would also allow NIB/Honeysuckle to operate below what is already a poor standard currently offered by the company.

I would regard this as totally anticompetitive and this is exactly the situation that ACCC should not allow.

Regards
ML
