Dear Ms Macrae,

Board of Airline Representatives of Australia Inc (BARA) application for revocation of authorisation A91466 and substitution of authorisation AA1000682

Thank you for your correspondence dated 7 November 2024 inviting comments in relation to BARA's application for a new authorisation AA100068. Airservices confirms our support for the application.

Airservices has a long history of engaging with the aviation industry through BARA. We greatly value the role of BARA representing its members on both commercial matters and operational opportunities to continually improve outcomes for the travelling public.

We have ongoing consultation through the locally based Executive of BARA to ensure consistent reach with a broad cross-section of international airlines that contribute significant passenger flights in the Australian aviation network. As Airservices is planning the development of a new long-term pricing agreement to Financial Year 2031-32, we would support the 10-year timeframe for the new authorisation.

We appreciate the opportunity to be informed of the progress of the application and please contact Emily Brown, Regulatory Pricing Manager, [REDACTED] for any future correspondence or questions.

Yours sincerely,

A rectangular grey box redacting the signature of Rob Sharp.

Rob Sharp
Interim Chief Executive Officer
