**Subject:** CEC Approved Retailer Scheme

Dear ACCC,

I don't think the Clean Energy Council's Approved Solar Retailer Scheme should be reauthorized by the Australian Competition and Consumer Commission in its current form on account of how the past operation of the CEC Approved Retailer Scheme has...

Not been voluntary in practice.  
Reduced competition which has been against the public interest.  
Has resulted in the CEC acting to the detriment of solar installation companies that are not Approved Solar Retailer members.  
Thank you
