**St. Luke's Medical and Hospital Benefits Association application for authorisation AA1000671 –
interested party consultation**

Australian Unity Health Insurance would like to thank the ACCC for the invitation to make a submission as an interested party in response to St Luke's application for authorisation in relation to its Gap Free Network.

We have considered St Luke's application and its subsequent correspondence with the ACCC and agree with St Luke's premise that the establishment of their Gap Free Network will positively impact accessibility and affordability of oral health care in Tasmania and is therefore likely to result in public benefit.

Kind Regards

Rebecca Windsor
CEO, Health Insurance
