

CARPET COURT

19 July 2024

Australian Competition and Consumer Commission
Level 17, 2 Lonsdale Street
Melbourne VIC 3000

Re: ResiLoop Limited Application for Authorisation AA1000675

To whom it may concern,

Carpet Court Australia (CCA) supports ResiLoop's interim and final authorisation application under the *Competition and Consumer Act 2010* (Cth). As a key stakeholder in the resilient flooring industry, we recognise the significant environmental and economic benefits that the proposed product stewardship scheme will deliver.

CCA fully endorses the voluntary, industry-led initiative aimed at collecting and recycling resilient flooring waste. The scheme's implementation is a practical and necessary step toward promoting sustainability within our industry. Clear disclosure of the levy ensures greater accountability, enhances the reliability and uniformity of the scheme's operations, and mitigates the risk of misleading environmental claims. We believe that this initiative will enhance the recycling infrastructure, reduce landfill waste, and support the development of a circular economy.

CCA is committed to collaborating with ResiLoop and other industry participants to achieve the scheme's objectives. We believe this initiative will deliver significant public benefits, including enhanced environmental outcomes, improved resource efficiency, and positive competitive effects across the resilient flooring market.

Sincerely,

Carpet Court Australia
