**Subject:** Re: DBCL GROUP PTY LTD: MA1000021 – Telstra TPG Spectrum Transaction – submission'

To Whom It May Concern:

Further to our submission in June, we would like to highlight the fact that not having sufficient coverage in regional towns is impacting our business capabilities to reach out all those customers who prefer to work and live in those areas. Moreover, we suffer constant churn of our existing customers who decide to move away from the metropolitan areas. This itself is a massive setback for our business growth.

As we all know most of the handset vendors now have all the 5G phones in the market. However, many regional customers are yet to take this advantage from our network which costing them lot more due to lack of competition.

Therefore, we believe it will be a Win/Win situation for everyone if this agreement gets approved by ACCC.

Kind Regards
