Subject: Prevent Managed care by ' for profit insurers'.

Dear Sir/ Madam,

Please prevent the destruction of our health system by refusing managed care in Australia.

Managed care will remove our ability to choose the care that is appropriate for us, by pretending to give cheap premiums and no out of pocket insurance to clients.

Eventually it will prevent access to appropriate care, costing us (patients and doctors) far more to access the required care.

We have a very good health system in Australia. Far better than the USA, UK or Europe. We should strive to protect it.

Thanks very much.

Dr B Abeyesiri
Anaesthetist
