**Subject:** Disagreement with the ACCC draft determination of the Honeysuckle/NIB proposal.

To the ACCC,

I strongly disagree with the proposed Honeysuckle/NIB health service plan.

Following the health model of the USA will adversely affect provision of health services to all Australians. Australia has one of the best healthcare systems in the world with care being controlled by expert medical practitioners and their patients. Handing over control of medical decisions, procedural options, choice of Doctor and hospital to a commercial company is a significant backward step.

It is completely unacceptable for Australians to have their medical treatment options in the hands of a commercial company.

regards
