To Whom it May Concern,

The introduction of managed care to private medicine in Australia will result in the following issues -

- Increases the power and influence of large for-profit corporations and the funding and delivery of healthcare in Australia
- Gives control of healthcare standards to commercial interests
- Damages the foundations of Australia's world-class healthcare system
- Will erode the right of Australians to their choice of doctor and their access to procedures and hospitals
- Ultimately, that it will steal from the sanctity of the doctor-patient relationship and dictate how and where patients will be treated.

Yours Sincerely

Dr Janette Wright
