Subject: Opposition to the proposal to grant NIB/Honeysuckle a buying collective

I write to express my opposition to the proposal to grant NIB/Honeysuckle authorisation to operate a buying collective with Australian healthcare providers (Authorisation number: AA1000542).

This reduces the current level playing field that health care providers operate under in the private sector in Australia and ultimately restricts patients' options when choosing a health care provider.

The only motivation for NIB/Honeysuckle to operate such a program is to reduce the quality of the product that they sell to patients and increase their profit margins.

This is anticompetitive corporate behaviour.
