To Whom It May Concern,

It is apparent that significant industry changes are pending regarding the delivery of quality medical care in Australia.

It is notable that there has been an equally significant lack of notice to key stakeholders - those clinicians who care for actual patients day to day.

I would request a review of the timeline, and a transparent and widespread distribution of this campaign - particularly to those Australian clinicians who currently keep their fellow Australians safe from the kind of 'care' we have all seen play out in other countries.

Yours sincerely

Eliza Tweddle
