**Subject:** AA1000542 – Honeysuckle Health – submission

I am writing to object to the draft submission re: managed care. This is a threat to quality care to Australians. The timeframes provided to voice objections is also inadequate, with little regard or consultation with clinicians who provide patient care.

The chief concerns are:

- Increases the power and influence of large for-profit corporations and the funding and delivery of healthcare in Australia
- Gives control of healthcare standards to commercial interests
- Damages the foundations of Australia's world-class healthcare system
- Will erode the right of Australians to their choice of doctor and their access to procedures and hospitals
- Ultimately, that it will steal from the sanctity of the doctor-patient relationship and dictate how and where patients will be treated.

The high quality care offered to the Australian population is threatened by such proposed changes.

Regards  
Emily Perry
