Dear ACCC,

The agreement with Telstra will result in significant benefits for our customers in terms of improved quality of services, greater coverage and quicker access to 5G services. We consider this will be attractive for consumers who live in, or travel through or to, regional and rural areas in Australia. This will help us to retain our existing long-standing clients because it will address issues that have likely been raised by our customers (or consumers that have opted to go with another provider) about the quality of our network in many regional and rural areas.

Hence, we as one of Branded partner (Dealer) request to consider this long-term sharing network .

Regards

**Sumeet Verma (Sam)**
