Subject: CEC Code - AA1000514 – Submission

The CEC Approved Retailer Scheme Is Not Voluntary & Is Anti-Competitive.

This scheme is a mandatory condition for business in VIC and SA. Solar rebate accessible only for large installers who got resources to handle the paperwork. New or smaller business can not enter this business only because of CEC code of conduct. **Particularly new start-up business who got provisional CEC installer licence has no chance in VIC. CEC cod of conduct supposed to be voluntary !!!**

Thank you

Fred
