Interface Aust Pty Ltd Submission - on behalf of ResiLoop Ltd

Interface Aust Pty Ltd, as a provider of resilient flooring and as a key stakeholder within the resilient flooring industry, confirm our support the ResiLoop Limited goal, that this national product stewardship program will deliver, to improve the design, recovery, reuse, and recycling of resilient flooring consumed in Australia.

Interface Aust Pty Ltd fully endorses ResiLoop Limited implementation of the program to divert resilient flooring waste from landfill supported by a levy scheme delivered transparently by members to enable the coordination of collections of materials and delivery to end market recyclers.

Interface Aust Pty Ltd recognises the ResiLoop product stewardship program as a key building block for the development of a circular economy within the resilient flooring industry.

Sincerely,

Aidan Mullan

Sustainability Manager

Interface Australia & New Zealand
