Subject: AA1000542 – Honeysuckle Health – submission

To whom it may concern,

I implore you to reconsider the approval of this submission. Australians have the right to choose what the best Medical care is for their personal circumstances. This proposal strips them of those rights.

I grew up in the US and one reason for choosing to stay in Australia was because Australia did things right by their people - they looked after them. [REDACTED] - why are we trying to emulate a broken system here in Australia? Well - I can tell you why - to line the back pockets of the health insurance companies at the expense of the greater people. Not cool!

Sincerely,
Lindsay
