Subject: RE: AA1000622 - Brenntag Australia application for re-authorisation - AdBlue [SEC=OFFICIAL] [ACCC-ACCCANDAER.FID3313126]

Simon

Thanks you for contacting us about the extension of this exemption.

I am happy to advise that the National Heavy Vehicle Regulator does not have any objections to the extension of these co-ordination arrangements.

Provided they are subject to similar supervisory conditions that mitigate against anti-competitive behaviour, the mechanism likely to be beneficial to the industry.

Should you require more information or to discuss further, please do not hesitate to contact me.

Kind regards,

Peter Austin
