Dear Sir/Madam,

The proposed merger of Suncorp with ANZ will obviously lead to a lessening of competition as once again a " big four " bank takes out a competitor.

A reduction in competition can lead to increased fees and less branches for we customers.

These mergers are about executive ego and bonuses. Customers and shareholders are given scant consideration. Their is NO IMPERATIVE or Suncorp to merge with ANZ.

However the corrupt powers-that-be will probably approve it for their mates!
