Dear Miriam

Thank you for your email of 7 September 2020 seeking further views on the CEC's amended Solar Code, and for your ongoing consultation with us.

We note the CEC have adopted all of our recommendations. We do not have any outstanding comments or concerns with the amended Code.

We note there appears to be a minor formatting error at 2.2.14, where a line break is inserted after 'pursuant to', creating two '2.2.13' clauses.

As indicated previously, we would be happy to engage further on this issue with the CEC if they wish, noting the OAIC has regulatory oversight of compliance with APP 7.

Kind regards

Karam
